Green Wise products are certified by Coatings Research Group Inc. to meet performance and environmental standards as shown on www.greenwisepaint.com. The addition of colorants may significantly increase the final VOC of a tinted paint.

VOC limits comply with LEED 2009 v 3. Refer to Technical Data Sheets for recommended surface preparation and application instructions, available at www.farrellcalhoun.com. For additional information, contact Architectural Services or email julie@farrellcalhoun.com
